CarbonBlue
INNOVATIONS

English Biography

Prof. Michael Sung is currently an associate professor of finance at the Fanhai International School of Finance at Fudan University. Prof. Sung is a technology venture builder and investor, having founded various companies over the years in diverse high-tech industries ranging from AI, blockchain, semiconductor, and new materials industries. Prof. Sung is founder and Chairman of CarbonBlue Innovations, a cross-border tech-transfer and venture building platform that is focused on rapidly commercialising and scaling internationally-sourced blockchain, fintech, and digital finance innovation to developing countries.

Prof. Sung is also the founding co-director of the Fudan Fanhai Fintech Research Center at the Fanhai International School of Finance at Fudan University. His applied research includes digital finance, fintech policy & regulation, AI and Blockchain innovation, digital asset investment banking, asset-backed securitisation, tokenomics systems, digital economy business model innovation, and cryptoeconomics. In addition, Prof. Sung is faculty at the Chinese Institute of Economics and Finance, a national-level think tank focused on thought leadership for finance innovation and fintech policy and best practices. He is also faculty at HK University of Science and Technology, where he teaches executive and overseas MBA/EMBA groups on high-tech entrepreneurship, innovation thinking, business model innovation, commercialisation scaling, and doing business in China.
